

Not Just a Hockey Program

Carlton Comprehensive High School offers a wide range of technology, fine art, trades and academic classes.

Our school prides itself on the social and cultural diversity that exists throughout the building.

Carlton has many extra curricular pursuits with a full range of school sports like football, basketball, volleyball, soccer, cross country, curling, wrestling, badminton, track and field and golf.

We have a very vibrant arts community within the school including band and a major theatre production.

Other interest clubs include: Carlton Cruisers Car Club, Metal Club and Guitar Club are very popular.

HOCKEY CLASS

*CARLTON
COMPREHENSIVE
HIGH SCHOOL*

A SKILLS-BASED CLASS

A Skills-Based Class

The Carlton Comprehensive Hockey class will be a skills-based program that focuses on the development and refinement of fundamental hockey skills. The Hockey Canada Skill Development Program will serve as the curriculum.

Teachers who are certified hockey instructors will provide the on-ice instruction. Special guests coaches will be periodically invited to lend their expertise.

Mark Odnokon has been selected as head instructor. We will use resources from the community including Raiders, A & W Bears and Minto coaches and players.

Open to Grade 9 Students

The hockey class is open to all grade nine students who enroll at Carlton. If there are more applications than available spots, a selection process will occur. All levels of players will be accepted.

Arena info and student expectations

The Art Hauser Centre will be home to on-ice sessions. Students will be required to transport their hockey equipment to and from school for these sessions. Storage space will be made available at the school.

Cost

The cost of the hockey program has been set at \$50 for the year.

Tied to Physical Education class

The Hockey Program will follow a year-long format which will run for the entire year. Students will participate in Phys. Ed class during the off-ice days. April through June will see participants focus on dry land training as well as off-ice topics such as fitness and nutrition.

A second year of the Hockey Program will allow students to take the class as an elective credit in their grade 10 year.

Application Package:

To apply, a Carlton Comprehensive registration form needs to be completed. As well, we require letters of reference from the following people:

- Hockey coach or
- Grade 8 teacher
- A one page letter, penned by the applicant, explaining their passion for hockey.
